AIRPLANE

Builder and Type	CAP-21DS (homebuilt by Sergio Dallan)
Callsign	I-SIVM
Year of fabrication	1983
Engines	1xLycoming AEIO-540 (Experimental)
Total installed power	348HP
MTOW	740Kg (Aerobatic); 830Kg (Normal)
Seats	1
Other information	Derived from standard 200HP Mudry CAP-21, originated the whole family of modern CAPs (CAP-231, CAP-232). Built by Sergio Dallan and heavily modified (6-cyl engine, different and strengthened wing), debuted in 1983 winning Bronze Medal at European Championship in Ravenna (Italy). Since then I-SIVM competed in any International Championship (unrivaled record) getting several placements and medals. The plane has been recently equipped with a custom digital avionic suite designed by A-Tech, becoming the first Unlimited-class aerobatic plane in the world to sport a glass cockpit.
